

Sirena

COLLEZIONE 1993
1993 COLLECTION

Le morbide forme di Partenope, sirena dalla splendida voce il cui corpo fu portato dalle correnti marine fra gli scogli di Megaride in seguito al rifiuto di Ulisse, accarezzano il palmo della mano incantandola come una sirena.

The soft forms of Parthenope, a mermaid with a splendid voice whose body was washed up on the shores of Megaride after Ulysses' refusal, caress the palm of the hand, enchanting it like a mermaid.
